WORK EXPERIENCE

HIGHLIGHTS

2017 - CURRENT

YORK RISK SERVICES GROUP, DUBLIN, OHIO

- Team lead for a group of 10 people responsible for multiple systems, including a ~\$15M rewrite of multiple legacy claims systems.
- Responsible for the system architecture, infrastructure design, application design and development, DevOps, requirements, discovery and design, release planning, Agile process, coordinating with legacy teams, and communication with stakeholders.

2011 - 2017

IGS ENERGY, DUBLIN, OHIO (CLIENT)

- Helped the team adopt agile practices, including test-driven development, automated acceptance testing with SpecFlow, involving the QA team earlier in the process in “three amigos” meetings, iteration retrospectives, iteration planning, and bi-weekly releases.
- Managed project schedules and timelines and tracked project metrics.
- Led iteration planning meetings and tracked day-to-day work of the project team.
- Developed features and automated acceptance tests as a member of the development team (using C#, Angular.JS, Entity Framework, SQL Server, SSIS).

2010 - 2011

JPMORGANCHASE, COLUMBUS, OHIO (CLIENT)

- Managed project initiatives, including providing estimates, assigning work items, gathering requirements, creating test plans, and leading the development effort.
- Developed features using Ruby on Rails, RSpec, and Cucumber.

2009 - 2010

EDWARDS STEEL, COLUMBUS, OHIO (CLIENT)

- Rewrote several disparate legacy systems and integrated them into a single website using ASP.NET MVC that can be used by all departments in the company.

2007 - 2010

AVIZENT, DUBLIN, OHIO (CLIENT)

- Provided technical guidance and oversight for the development team of a >\$1 million project with over 20 team members in an Agile environment.
- Coordinated all aspects of project development, including application development, system architecture, project management, QA testing, help documentation, requirements gathering, deployment, release planning, and production support.

2006 - 2010

QUICK SOLUTIONS, WESTERVILLE, OHIO

- Led several software development projects, providing technical leadership as well as coordinating and managing the entire development lifecycle.
- Mentored other developers and developed action plans to help them achieve their career goals as a part of the consultant mentoring program.
- Performed technical interviews with potential new hires.
- Assisted with writing of responses to RFPs.

➤ Complete work history and references available upon request.

- Over **15 years** of experience as a software developer using .NET and Ruby on Rails
- Experienced in leading and architecting large Agile software projects and coordinating all aspects of a project's lifecycle
- I have spoken at various events including CodeMash, Path To Agility, Stir Trek, Central Ohio Day of .NET, and the Central Ohio .NET Developers Group on a variety of topics relating to software development and testing
- Created TDD Boot Camp, a comprehensive .NET test-driven development training course (<http://tddbootcamp.com>)
- Founded the [Columbus ATDD Developers Group](#)
