# RECENT WORK EXPERIENCE

# HIGHLIGHTS

2017 - CURRENT

## SR. MANAGER, YORK RISK SERVICES GROUP, DUBLIN, OHIO

- Took over a failing project, we are working to re-establish trust with the business and get development back on track using increased communication with business sponsors, agile process refinements, empowering the development team, and restructuring of code patterns.
- Led a team that developed a Python-based machine learning solution to predict the total cost of insurance claims. The team created user interfaces and reports that were used by claims managers and clients to proactively reduce claim costs for one of our largest clients.
- Leader of two software development teams working on several different projects (both local and remote workers). Managed developers, testers, business analysts, designers, and project managers and provided technical and architectural guidance.

2011 - 2017

## INDEPENDENT CONSULTANT, IGS ENERGY, DUBLIN, OHIO (CLIENT)

- Helped the team adopt agile practices, including test-driven development, automated acceptance testing with SpecFlow, involving the QA team earlier in the process in “three amigos” meetings, iteration retrospectives, iteration planning, and bi-weekly releases.
- Managed project schedules and timelines and tracked project metrics.
- Led iteration planning meetings and tracked day-to-day work of the project team.
- Developed features and automated acceptance tests as a member of the development team (using C#, Angular.JS, Entity Framework, SQL Server, SSIS).

2010 - 2011

## INDEPENDENT CONSULTANT, JPMORGANCHASE, COLUMBUS, OHIO (CLIENT)

- Managed project initiatives, including providing estimates, assigning work items, gathering requirements, creating test plans, and leading the development effort.
- Developed features using Ruby on Rails, RSpec, and Cucumber.

2007 - 2010

## PROJECT ENGINEER/INDEPENDENT CONSULTANT, AVIZENT, DUBLIN, OHIO (CLIENT)

- Provided technical guidance and oversight for the development team of a large insurance claims system rewrite with over 20 team members in an Agile environment.
- Coordinated all aspects of project development, including application development, system architecture, project management, QA testing, help documentation, requirements gathering, deployment, release planning, and production support.

2006 - 2010

## PROJECT ENGINEER/MENTOR, QUICK SOLUTIONS, WESTERVILLE, OHIO

- Led several software development projects, providing technical leadership as well as coordinating and managing the entire development lifecycle.
- Mentored other developers and developed action plans to help them achieve their career goals as a part of the mentoring program.
- Performed technical interviews with potential new hires.
- Assisted with writing of responses to RFPs.

➤ See more details and recommendations on my [LinkedIn page](#).

- Experienced in leading and architecting large Agile software projects and coordinating all aspects of a project’s lifecycle in both management and technical roles
- Over **15 years** of experience as a software developer using .NET, Ruby on Rails, JavaScript, and other technologies
- I have spoken at various events including CodeMash, Path To Agility, Stir Trek, Central Ohio Day of .NET, the Central Ohio .NET Developers Group, and others on a variety of topics relating to software development, automated testing, and agile practices
- Founded the [Columbus ATDD Developers Group](#)
