WORK EXPERIENCE

HIGHLIGHTS

2017 - CURRENT

SR. MANAGER, YORK RISK SERVICES GROUP, DUBLIN, OHIO

- Leader of two software development teams working on several different projects (both local and remote workers). Managed developers, testers, business analysts, designers, and project managers.
- Took over a failing project, we are working to re-establish trust with the business and get development back on track using increased communication, agile process refinements, empowering the development team, and restructuring of code patterns.

2011 - 2017

INDEPENDENT CONSULTANT, IGS ENERGY, DUBLIN, OHIO (CLIENT)

- Helped the team adopt agile practices, including test-driven development, automated acceptance testing with SpecFlow, involving the QA team earlier in the process in “three amigos” meetings, iteration retrospectives, iteration planning, and bi-weekly releases.
- Managed project schedules and timelines and tracked project metrics.
- Led iteration planning meetings and tracked day-to-day work of the project team.
- Developed features and automated acceptance tests as a member of the development team (using C#, Angular.JS, Entity Framework, SQL Server, SSIS).

2010 - 2011

INDEPENDENT CONSULTANT, JPMORGANCHASE, COLUMBUS, OHIO (CLIENT)

- Managed project initiatives, including providing estimates, assigning work items, gathering requirements, creating test plans, and leading the development effort.
- Developed features using Ruby on Rails, RSpec, and Cucumber.

2009 - 2010

INDEPENDENT CONSULTANT, EDWARDS STEEL, COLUMBUS, OHIO (CLIENT)

- Rewrote several disparate legacy systems and integrated them into a single website using ASP.NET MVC that can be used by all departments in the company.

2007 - 2010

PROJECT ENGINEER/INDEPENDENT CONSULTANT, AVIZENT, DUBLIN, OHIO (CLIENT)

- Provided technical guidance and oversight for the development team of a large claims system rewrite with over 20 team members in an Agile environment.
- Coordinated all aspects of project development, including application development, system architecture, project management, QA testing, help documentation, requirements gathering, deployment, release planning, and production support.

2006 - 2010

PROJECT ENGINEER/MENTOR, QUICK SOLUTIONS, WESTERVILLE, OHIO

- Led several software development projects, providing technical leadership as well as coordinating and managing the entire development lifecycle.
- Mentored other developers and developed action plans to help them achieve their career goals as a part of the mentoring program.
- Performed technical interviews with potential new hires.
- Assisted with writing of responses to RFPs.

➤ Complete work history and references available upon request.

- Over **15 years** of experience as a software developer using .NET, Ruby on Rails, JavaScript, and other technologies
- Experienced in leading and architecting large Agile software projects and coordinating all aspects of a project’s lifecycle in both management and technical roles
- I have spoken at various events including CodeMash, Path To Agility, Stir Trek, Central Ohio Day of .NET, the Central Ohio .NET Developers Group, and others on a variety of topics relating to software development, automated testing, and agile practices

➤ Founded the [Columbus ATDD Developers Group](#)
